

AGRICULTURE PLASTICS AND ENVIRONNEMENT - XXIst CIPA CONGRESS

CALL FOR SPEAKERS

MAI 29TH-30TH-31ST, 2018, BORDEAUX/ ARCACHON, FRANCE

In an ever faster changing world, where the development of plastic is a must to support the growth of the worldwide agricultural production (+50% in 30 years), it is necessary, more than ever, to understand globally the plastic from its usage as an auxiliary of production for farmers and growers to its end of life. Therefore the theme Agriculture, Plastic and Environment will be highlighted during the congress to underline its role for a more productive and responsible production.

The CIPA is requesting individuals that have an interest in presenting at the XXI st CIPA Congress. Languages of presentation are French, English and Spanish. Simultaneous translation among them will be insured.

Symposium announcement and call for abstracts - CIPA Congress early-bird registration is open.

MAIN THEMES FOR SYMPOSIUM INCLUDES:

➤ **Plasticulture and vegetable production.**

Protected cultivation films, netting, irrigation

➤ **Plasticulture and animal production**
